Professional Summary

Enthusiastic and motivated MERN stack developer with a strong foundation in web development principles. Pursuing a Bachelor's degree in Electrical Engineering. Proficient in using MongoDB, Express.js, React, and Node.js to build responsive and user-friendly applications. Eager to apply my technical skills and problem-solving abilities in a collaborative environment, while continuously learning and adapting to new technologies and industry trends.

Skills

Languages: Java (DSA), Basic Python **Front-end:** HTML, CSS, JavaScript, React.js

Frameworks/Tools: Bootstrap, Tailwind, Node.js, Express.js

Database: MongoDB, MySQL

Projects

Backend- AuthGuard:

- Developed a backend application using Node.js and MongoDB for secure user authentication, featuring email verification, password recovery, and automated welcome emails.
- Ensured efficient server-side operations and robust data handling, providing seamless user management and a user-friendly experience.

Front-end-Travel App:

- Created an interactive travel app using HTML, CSS, and JavaScript, offering digital experiences for exploring
 destinations with a visually appealing and user-friendly interface.
- Demonstrated strong frontend development skills, enhancing user engagement and usability for immersive travel exploration.

MERN STACK- ChatApp:

- Developed a chat app using the MERN stack (MongoDB, Express, React, Node.js) with features like user login, logout, real-time messaging, and contact management.
- Designed a responsive, dynamic user interface with React, enhancing usability and interaction.
- Utilized MongoDB and Node.js for efficient data storage and server-side operations, ensuring a smooth chatting experience.

Education

B.Tech in Electrical Engineering

Meerut Institute of Engineering and Technology, Nov 2021 – June 2025, CGPA: 7.70 Class 12 - UP Board, Kumari Udyan Girls Inter College, Kanpur, Mar 2020, 85.2% Class 10 - UP Board, Kumari Udyan Girls Inter College, Kanpur, Mar 2018, 86.6%

Work Experience

1.CodeSoft Sep'24-Oct'24

Full Stack Internship:

- Built a personal portfolio, a landing page, and a calculator using HTML, CSS, and JavaScript, strengthening foundational web development skills.
- Developed a job board and an eCommerce application with React, Node.js, and MongoDB, gaining experience in full-stack development.
- Created a project management tool as a final project using the MERN stack, showcasing proficiency in end-toend application development.

2.Eduskill Jul'24-Aug'24

AI-ML Internship:

 Developed and trained object detection models using TensorFlow, enhancing expertise in machine learning concepts and computer vision applications.

Certifications

- · Java with DSA HackerRank
- Mern Full Stack developer Nasscom Academy
- Certified System Administrator ServiceNow, Certified Application Developer--ServiceNow
